## **CODE OF CONDUCT FOR MEMBERS**

**INTRODUCTION:** In order to be seen as an open, welcoming, warm and friendly Club we need to build an environment based on the modelling of sociable behaviour.

The following is a list of behaviours and attitudes which, if applied on a regular basis toward others, would help to present our Club in a positive way. This list is by no means complete, but it should give us a good referral and starting point.

- Present a good sporting spirit. Be a good sport by:
  - Setting a good example for others to follow.
  - Working hard for your team and yourself.
  - Treating all team mates and opponents as you enjoy being treated.
  - Controlling your behaviour on and off the green.
  - Valuing honest effort, skilled performance and improvement.
  
- For your Club please try to:
  - Respect the decisions made by those whom you have democratically elected.
  - Encourage and create opportunities for others.
  - Make sure that you welcome any new members and visitors. Check on their needs in order to make them feel at home and the next time you meet them, follow up on your initial welcome.
  - Help keep your Club neat and tidy as it is a responsibility for each and every member.
